

Office of the Chancellor
THE TEXAS A&M UNIVERSITY SYSTEM

June 20, 2024

MEMORANDUM

TO: System Offices Employees

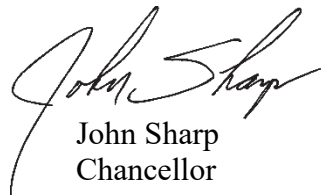

SUBJECT: Environmental Stewardship – Integral to Our Mission

Members of The Texas A&M University System have a rich history of environmental stewardship that continues to be positively reflected every day on our campuses and at our agencies.

Our commitment to environmental stewardship is proven as we plan, design and build our facilities. Additionally, on a daily basis, we have many professionals, workers, contractors and volunteers maintaining our standards and improving our practices.

Moreover, environmental stewardship is a commitment that has been codified by the Texas A&M University System Board of Regents in System Regulation 34.01.03 Environment. As chancellor, I heartily endorse this regulation.

If you would like to learn more, have ideas for how we can improve or would like to play an active role, you are invited to reach out to the A&M System Environmental Manager at safety@tamus.edu. Or for more environmental content, please visit the [Environmental Management](#) section of the System's website.

John Sharp
Chancellor
