

CCSU hosts environmental events

Bioremediation. Marine garbage dumping. Protection of the Gulf of Mexico. These were some of the varied environmental issues discussed in three separate events held on campus over the past two weeks indicating growing recognition of CCSU's environmental affiliations.

CCSU gets world's first Bioremediation test site

It began simply. Four shovels broke the ground at the April 23 ceremonies, and a few chunks of dirt later, CCSU became part of the world's first Bioremediation Test

Facility. When completed, the Coastal Oilspill Simulation System (COSS) will enable environmental research scientists not only to simulate marine environments for chemical countermeasures testing, but provide long-term opportunities for more successful bioremediation of oil spills.

CCSU, the Texas General Land Office (GLO), the Marine Spill Response Corporation (MSRC) and Central Power and Light Co. (CPL) are sponsoring the multiphase COSS project. The initial engineering and construction phase is being funded by gifts of \$175,000 each from the GLO and MSRC. An independent non-profit corporation, MSRC was formed by petroleum companies to respond to large oil spills.

Phase One of the COSS project will include construction of a reactor tank at CPL's Barney M. Davis Power Station in Corpus Christi. If the prototype (a seven-foot wide, See "Bioremediation," page 3.

Ortiz holds congressional hearings on campus

Congressman Solomon P. Ortiz, chair of the U.S. House of Representatives' Merchant Marine and Fisheries Subcommittee on Oceanography, Gulf of Mexico, and the Outer Continental Shelf, chose CCSU as the host site for the first congressional field hearing. Held April 23 to address the role of the federal government in maintaining the health and productivity of the Gulf of Mexico, the four members of the congressional subcommittee heard testimony from representatives of 14 different agencies, including CCSU's Center for Coastal Studies.

"At Corpus Christi State University," stated the Center's associate director Dr. Quenton R. Dokken in his written statement to the Subcommittee, "we strive to promote See "Ortiz," page 3.

OECS training session

CCSU hosted delegates from the Wider Caribbean Region April 28-30 during a conference on port technology and enforcement of international efforts to curb illegal dumping of ship garbage in the Gulf of Mexico and the Wider Caribbean.

The U.S. Coast Guard, the World Bank, the U.S. Department of State and the Texas General Land Office sponsored training sessions for members of the Organization of Eastern Caribbean States (OECS). Several top officials from eastern Caribbean nations—Antigua and Barbuda, Dominica, Grenada, St. Vincent and the Grenadines, St. Kitts and Nevis, and St. Lucia—attended.

The training, for enforcement of the International Maritime Organization's (IMO) Maritime Pollution (MARPOL) Annex V treaty, was conducted to facilitate the establishment of adequate port reception facilities in the Region in See "OECS," page 4.

CCSU graduates 441

Muñoz to speak

The 441 candidates for graduation at CCSU's May 7 commencement, which will be held at 7:30 p.m. in Memorial Coliseum, can look forward to an address from Texas Transportation Commission member Henry R. Muñoz III.

Also during commencement, Distinguished Service Awards will be presented in honor of Mr. and Mrs. Howard E. Butt and George Brown.

The Butt family has a long-standing association with the University that traces back to the University of Corpus Christi era when day to day support was delivered in a variety of fashions to include the supplementing of faculty salaries. The Butt family was directly responsible for provided housing for married students, day care facilities on campus and the construction of the University's library, headquarters, now, for the campus administrative offices.

George Brown's legacy at the University includes his tireless contributions to 4UCC, a grass roots, volunteer organization which mobilized countless local and area citizens in support of converting the University to comprehensive status. As a business and civic leader, Brown has worked for years to increase the profile of the University.

Muñoz, appointed to the Texas Transportation Commission by Governor Ann Richards in November 1991, is the department's first minority commissioner. Muñoz previously served the state as a member of the Texas High-Speed Rail Authority, where he chaired the fran-

chise agreement committee and successfully negotiated a 50-year agreement that created the environment to bring high-speed rail to Texas.

In 1990, Muñoz was appointed to the Texas Inaugural Committee,

serving as co-chairman of the *Texas Our Texas* gala. In 1991, he chaired the Presidential Host Committee for the visit of Mexican President Carlos Salinas de Gortari to San Antonio.

An active civic leader, Muñoz has served on the boards of many local and statewide organizations, including current involvements with the Texas Lyceum, the Guadalupe Cultural Arts Center and the San Antonio Symphony. He is a recipient of the J.C. Penney Golden Rule Award and the Profiles in Leadership Award.

During the May 1993 commencement ceremonies, two CCSU ROTC cadets will receive their military commissions. Herbert Flachofsky, graduating with a BS in nursing, and Chris Hall, graduating with a BS in geology, will both be commissioned as Army Lieutenants.

Master's degree in English approved

AUSTIN - A Master of Arts in English for CCSU was approved April 29 by the Texas Higher Education Coordinating Board. The new degree will bring to 47 the number of degrees available at CCSU.

Slated for implementation in the fall (1993), the new degree addresses developing highly skilled and knowledgeable teachers of English at secondary and community college levels, as well as professionals to conduct writing training for industry employees. Additionally the program will offer South Texas students the preparation needed to begin doctoral study.

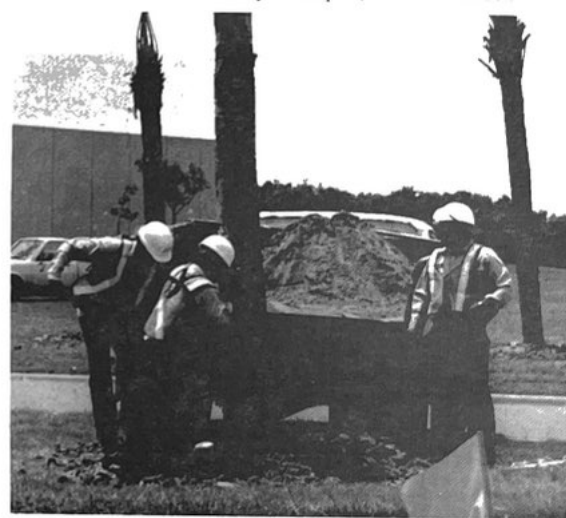

"This program is designed," says President Robert R. Furgason, "to further the student's proficiency in writing, composition theory, linguistics, literature and literature theory. It will offer all candidates the opportunity to grow intellectually and creatively through the advanced study of language and literature."

The University has plans for faculty expansion attendant upon the admission of freshman and sophomore students in 1994, and anticipates the hiring of at least five additional English professors.

In other action, the Coordinating Board granted permission to the University to update the current Table of Programs to include the following: MA, History; MFA, Art; MS, Kinesiology; MS, Gerontol-

ogy; BAAS, Applied Arts and Sciences; and BS, Health Sciences. Universities establish Tables of Programs to accommodate planning for academic growth. The MA in English has been in the University's

Table of Programs since 1973 when CCSU's public university phase began. Prior to that time, the institution was known as the University of Corpus Christi and was a private, Baptist, liberal arts school.

CCSU gets palm-lined drive

CCSU gets a tropical look this month as employees finish planting the 123 Florida Sabal Palms (also known as Cabbage Palmetto) lining the campus' west entrance.

Florida Sabal Palms were selected, reported CCSU Grounds Supervisor and landscape architect Randy Haaker, due to the species' "permanence, durability, character and overall performance" in the region. "As the University grows," he stated, explaining the importance of the project, "it will be increasingly important to create an identifiable and unique arrival image as one approaches campus. First time visitors and prospective students alike require a clear sense of 'the front door.' This entry should portray CCSU as a most unique and special university located on an island."

According to Haaker, a \$11,392 grant from the Texas Forest Service of The Texas A&M University System is covering the bulk of expenses associated with the project. The grant was approved by the Small Business Administration as part of a consolidated grant application by the Texas Forest Service. The TFS implemented the grant as part of a national tree planting program, said Haaker. The University plans to continue this formal landscape system throughout the campus "to delineate major roadways and add visual uniformity and continuity on a campus wide scale," according to Haaker.

'94 COUNTDOWN:

500

days to first class day of four-year status

Carolyn and Dan Pedrotti (center) show pages from a signed copy of *World of Wildlife*, a limited edition the couple recently donated to CCSU. Also pictured are CCSU President Dr. Robert Furgason (right) and V.P. of Institutional Advancement H. Ken DeDominicis.

CCSU presented with *Wildlife Paintings* book

During the April 14 CCSU President's Council meeting, members Dan and Carolyn Pedrotti presented Dr. Robert R. Furgason a signed copy from the limited edition (1,245 copies) of Gary R. Swanson's *World of Wildlife Paintings*. Pedrotti said he presented the book, consisting of paintings of wildlife from three continents, to be used at Furgason's discretion. "It is a very beautiful book," explained Pedrotti. "It belongs in a place where the public has access to it."

The publisher's note accompanying this special volume speaks of the work as setting standards for art, exquisite printing and hand binding. Due to the perishable nature of the work, Library Director Richard L.

O'Keeffe has decided to display the volume for a few weeks or months at a time in one of the Library's first-floor display cases away from direct sunlight. While it is on display, the pages will be turned from time to time both to prevent overexposure of any one page and to highlight individual pictures for viewers.

"The University Library is privileged to have this special publication in its care," wrote O'Keeffe in a memo to Furgason. Furthermore, O'Keeffe added, "the Library should display it from time to time in ways that do not place it in danger of mishandling." For this initial exhibit, the volume will be displayed on the first floor of the Library for about one month.

Financial Assistance Corner

The Office of Student Financial Assistance (OSFA) has application materials and information on a variety of scholarships, grants, fellowships and service programs. For information on any programs listed below, stop by the office, located in the Administration Building Room 115, or call 994-2338.

Joubert Deserving Student Scholarship
Deadline: May 27, 1993
Amount: Varied

This scholarship is designed to aid a deserving student with financial assistance in the form of tuition and fees at CCSU; scholarship is awarded for all semesters through the student's undergraduate degree provided he/she successfully completes a minimum of nine (9) credit hours each semester. During the semester the successful candidate will consult with Mr. or Mrs. Joubert or their representative during mid-term and prior to final examinations; the meetings will be to aid the student in their progress toward their goals.

Coastal Bend Community Foundation: Jim Springer Memorial Scholarship
Deadline: May 31, 1993
Amount: \$500

One year \$500 scholarship awarded to student classified as a junior at the beginning of the 1993-94 academic year who will be attending an accredited university on a full-time basis. The student must have a declared major in public relations, marketing, advertising or commu-

nications; have a GPA of 2.5 or higher; and be a permanent resident of Aransas, Bee, Jim Wells, Kleberg, Nueces, Refugio or San Patricio counties. Selection will be on merit.

Completed applications must be mailed to CBCF receipt no later than May 31.

Coastal Bend Community Foundation: Mark Todd Hale Memorial Criminal Justice Scholarship
Deadline: May 31, 1993

One year \$1000 scholarship awarded to a qualified college student who is studying criminal justice and plan a career in law enforcement. The student must attend an accredited college or university on a full-time or part-time basis during the 1993-94 academic year; have a GPA of 3.0 or higher; and be a permanent resident of Aransas, Bee, Jim Wells, Kleberg, Nueces, Refugio or San Patricio counties. Selection will be on merit.

Completed applications must be mailed to CBCF for receipt no later than May 31.

Texas Alliance for Minority Participation Fall 1993 Scholarships
Deadline: not stated
Amount: \$750 per semester

Eligibility: Must be a transferring Junior or first semester Senior majoring in mathematics, computer science, chemistry, biology and environmental science; 2.5 or better GPA; full-time student status; U.S. citizenship and permanent U.S. resident. Eligible minorities: African American, Hispanic, American Indian; Alaskan native or Pacific Islander.

For additional information and applications, come buy the Dean's office, CCSU College of Science and Technology or call 994-2350.

Association for Retarded Citizens Don Miller Memorial Scholarship
Deadline: July 15, 1993
Amount: one year's tuition

Eligibility: college junior or senior enrolled in Texas public college or university who has chosen a degree plan relating directly or indirectly to the field of mental retardation services; completed application form including transcript of college grades; letters of recommendation.

American Business Women's Association
 Applications can be picked up at the Office of Student Financial Assistance, Room 115 of the Administration Building.

Summer Break Hours

The CCSU campus will be open during the break between the Spring semester and Summer Session I, but several buildings will operate on reduced hours.

The next issue of *University News* will be published June 1, 1993. Deadline for submitting news items or articles is noon, May 25.

The University will be closed, Monday, May 31, for the Memorial Day holiday.

Accounting students honored by CPAs

Accounting students at CCSU have made a strong impression with local CPAs, judging by the honors bestowed on them recently. The Corpus Christi Chapter of the Texas Society of Certified Public Accountants (TSCPA) has acknowledged two students for outstanding achievements in accounting.

Lea Kandel has been named the 1993 recipient of a \$300 scholarship

from the Corpus Christi Chapter of TSCPA. The announcement was made jointly by Dr. Cheryl Hein, coordinator of CCSU's accounting discipline, and the Corpus Christi Chapter of TSCPA. Kandel was honored at a luncheon meeting of TSCPA in March where she received her award from Anita Burch, president of the Corpus Christi Chapter.

At the same ceremony, Burch presented Gary Wayne Williamson the Accounting Excellence Award. His selection was named jointly by Hein, TSCPA and the Educational Foundation. Williamson, who plans to graduate in May, was chosen for his outstanding performance as an accounting student—he has a 3.9 (out of a possible 4.0) grade point average.

Lawhon, Medina receive finance awards

Move over, Donald Trump—the brightest new Wall Street stars have just been recognized. In an April 16 ceremony at the College of Business Administration (CBA), Dean Moustafa H. Abdelsamad presented two CCSU students with awards to recognize their achievements.

James C. "Clint" Lawhon II was named the 1993 *Wall Street Journal* Award winner. The CBA finance faculty selected Lawhon from among full-time graduating seniors on the basis of overall grade point average (GPA) and GPA within the finance major.

A graduate of King High School, Lawhon is the son of Corpus Christi residents Jim and Gloria Lawhon. As a freshman at Del Mar College, Lawhon was inducted into Phi Theta Kappa. In his second year, he was named to the Permanent Honor Roll and presented with the Outstanding Student in Economics Award. While at CCSU, Lawhon has maintained a 4.0 GPA; he was inducted into the Alpha Chi honor society and was named to the CBA Student Advisory Council.

est of six children, Medina was born in Buffalo, New York, but has lived in San Juan, Puerto Rico and Kerrville, Texas before moving to Corpus Christi in 1984.

Medina graduated in the top quarter of his class at King High School in 1989 and received his associate's degree from Del Mar College in the fall of 1991. He graduated with honors from CCSU in December 1992, and is currently working on his MBA in the College of Business Administration, anticipating graduation in the fall of 1993.

In the same ceremony, Frank Medina was named CCSU's 1993 Outstanding Finance Major. Medina is the son of Mrs. Gloria Medina of Corpus Christi and the late Dr. Ruben Medina of Puerto Rico. The young-

Rummage sale raises big bucks for student club

The CCSU Computer Science Club raised over \$250 at their April 24th rummage sale held on campus by the fountain. This was the final fund raiser of the semester for the group which has raised over \$800 this spring alone through computer disk sales, the rummage sale and candy sales. These funds will be used to help send CCSU students to computer programming contests as well as covering the cost to host guest speakers for club meetings.

Letter to the Editor

The Computer Science Club would like to thank all the faculty, staff and club members who made our rummage sale a big success! We would like to extend special thanks to Liz Atkinson in the Student Life Office for cutting through "the red tape" and help us finalize the details

of the rummage sale (we would have been really confused without you—GW, BB, LL), to our Vice-President, Bonnie Brady, for organizing the rummage sale when we deserted her (it was a great idea, Bonnie—GW, LL), and to our President, Genna Warner, for organizing the

Ortiz continued from page 1

partnerships with private industry, other academic institutions, and state and federal resources management agencies to attack the challenges of understanding and utilizing the Gulf of Mexico in a comprehensive long-term framework. The Center for Coastal Studies not only conducts applied and basic marine research, but also develops and supports programs such as the Center for Environmental Studies and Services, the Flower Gardens Ocean Research Project, the Adopt-A-Wetlands Program, and the Gulf of Mexico Foundation. (CCSU's) Conrad Blucher Institute for Surveying and Sciences and the Texas General Land Office have collaborated to install a real-time remote sensing network to monitor tides, meteorology and other marine environment parameters.

"(CCSU's) National Spill Control School was designated by Congress in the Oil Pollution Act of 1990 as a training and research resource to the National Response

Congressmen Solomon Ortiz (left) and Greg Laughlin (right).

Team, and has since trained thousands of people from private industry and government agencies to respond to and manage spills of oil and hazardous materials. And the Cen-

ter for Water Supply Studies is working to find solutions to meeting one of the greatest environmental challenges facing Texas, the supply and allocation of freshwater."

"Those of us who have lived close to the Gulf of Mexico have a unique appreciation of the value of this precious natural resource," Ortiz said. "The Subcommittee feels that coordination between the Federal government, the States and the academic and civilian community is essential in order to maintain the health and productivity of the Gulf of Mexico, which, in turn enhances the economic prosperity of the Gulf region."

CCSU Estudiantina offers Mother's Day 'Serenatas'

CCSU's Estudiantina will be performing "Serenatas" for Mother's Day. An old Mexican tradition, the custom is for "the Mananitas" to sing to designated mothers before daybreak on their special day. The CCSU group is offering a package of five songs for \$45 beginning May 8 through daybreak on May 9. Long distance telephone songs are \$5 plus phone charges. In addition to singing, the performers play a variety of instruments including the guitar, bass, mandolin, bandurria, violin and laud, complete with colorful garb. To reserve the CCSU Estudiantina for Mother's Day, call 851-8380.

Et cetera

UCSS

The CCSU Student Reading Council won the University Committee on Student Services' (UCSS) Scrapbook Contest. Announcement and presentation of the \$100 prize was made at UCSS's End-of-the-Year Luncheon on April 22. The winner of this semester's Favorite Professor Award was also announced at the luncheon with Associate Professor of Physical Education Marie Pennington winning for the second time.

Avery presents paper

CCSU student Linda Avery presented a research paper at the 4th Biennial Symposium on Minorities, the Medically Underserved and Cancer: Cultural Diversity, Poverty, and Health Care Reform held April 21-24 in Houston. The paper was written as a result of an independent study sociology course. Professor of Sociology Dr. Ross Purdy and Adjunct Professor of Sociology Dr. Pamela Meyer work with Avery on the research project. Meyer, a specialist in this area, accompanied Avery to the Houston symposium.

Wood presents paper

Dr. Cheryl Hein, professor of accounting and area coordinator for accounting and business law, and Gretchen Arnold Wood, a graduate student in the College of Business Administration, attended the Tenth Annual Southwest Business Symposium in Edmond, Oklahoma, on April 15 and 16. Wood presented a paper entitled "Perceived" Ethics

in International Business" which she co-authored with Hein. Hein presented a paper entitled, "Designing an International Accounting Course."

University Bookstore

All Graduation, Mother's Day cards and novelty merchandise are 25% off regular prices. Bargain Books are now reduced 50% off already discounted sale prices—including all children's books, computer trade books, Dead Books and general reading titles. The Children's Book promotion includes one free package of Hallmark stickers with every \$15 purchase of children's books. Look for other unadvertised specials in the store—hurry in for best selection.

Graduation time is near—orders for announcements have begun (three to four days turnaround time). Don't forget to pick up thank you notes. Student caps and gowns are available now. The last ArtCarved class ring sale of the semester will be conducted through May 7. Save up to \$100 on 18K gold. Minimum \$50 deposit required. Four weeks delivery time.

Book buyback time continues! Sell your books through May 7 for some fast cash and play the Cash For Your Books Sweepstakes for great prizes. Win cash, clothing gift certificates, CCSU decals, frisbees or 10-30% discounts on emblematic clothing and caps. Plus, receive a free Bar None candy bar, while supplies last.

ACM lecture presented by Dr. Walter J. Utz Jr. (you did a great job, Genna—PM, LL, BB).

The Officers of the Computer Science Club, Genna Warner, Bonnie Brady, Linda Lee and Dr. Patrick Michaud

Bioremediation

continued from page 1

eight-foot deep, and 100-foot long tank) proves successful, 11 more tanks will be constructed on the land, which CPL contributed for use by the University. The completed research facilities will be owned by CCSU.

GLO Commissioner Garry Mauro, CCSU President Dr. Robert

R. Furgason, CPL's Chief Executive Officer Robert Carey and MSRC Vice President Steve Duca were on hand for the event, providing the ceremonial "digs" which kicked off construction of phase one.

Environmental science graduate students from CCSU working in cooperation with several University centers, including the Bioremediation Research Institute, National Spill Control School and Center for

Coastal Studies, will investigate the effects of bioremediation using such tools as herders, dispersants, elastisizers and other chemical countermeasures used to combat oil spills.

As part of the multiphase operation, the Environmental Protection Agency and the Texas Water Commission have agreed to fund the first year of COSS's operation with \$350,000 of grant money to the University.

Classes begin: Summer Session I

Registration for Summer I scheduled for May 28

If you missed the opportunity to register early for Summer Session I (SSI), mark your calendar for May 28. That is the day the CCSU Field House will once again be site of regular registration.

Between 8:30 a.m. and 6:30 p.m. students may register for SSI classes. Please note the alphabetical order of registration listed below. Students may register **AT** or **AFTER** the time listed beside the first letter of their last name.

The entire registration process, from picking up the class scheduling forms (CSFs) to payment of fees, takes place in the Field House. Student may register **at** or **after** their assigned registration time (see below). New students should stop by the Admissions Office in the Administration Building and complete an enrollment application. At that time a CSF will be created.

Those students who participated in early registration still have a number of deadlines to keep in mind. First and foremost is the payment deadline: May 20. If you have not paid your tuition and fees for Sum-

mer Session I by May 20, the classes you have reserved will be released back into computer pool to become accessible to other students during regular registration.

In addition, a special Add/Drop day has been set aside for students who early registered and wish to adjust their SSI, SSII or Fall schedules. Adjustments can be made on May 27 from 1 to 6:30 p.m. in the Field House. Students can also add or drop classes during regular registration, May 28, using the same alphabetical schedule listed below.

The Summer and Fall 1993 schedules are available in the Office of Admissions in the Administration Building.

Late registration will take place in the Registrar's Office, Administration Building, during regular business hours June 1-4. A late registration fee of \$5 is required. Regular business hours are: 8 a.m.-5 p.m. Monday, Wednesday, Thursday; 8 a.m.-7 p.m. Tuesday; 8 a.m.-3 p.m. Friday.

Classes for Summer Session I start Tuesday, June 1.

Registration Schedule for May 28

If you last name begins with:	You may register AT or AFTER :

- Aug. 30 Fall Classes Begin

Recreational Sports Roundup

The Recreational Sports program draws to a close for the semester this week; look for summer program announcements in the June 1 issue of *University News*. For more information on Recreation Sports, contact Ann DeGaiush at the Field House, Room 114, 994-2454.

University Pool

Repairs are being made to the pool. Check with the Field House

for information on opening day. Pool hours will be 12-5 p.m. daily, once the pool is open.

Lockers

Lockers need to be cleared out by Monday, May 10.

Movers, Shakers & Motivators Last Day: May 7

Individuals earn points for aerobic activities such as cycling, swimming, walking and aerobics.

Softball Results

Two CCSU teams made it to the softball championship this semester and in the final game of the competition, The Funky Bunch defeated the Scopers 16-15.

Volleyball Triples Results

Triple Threat defeated Court Master 2-0 in the championship match of the volleyball triples.

University Magazine sees positive changes

Instead of chasing down crooked congressman and sinful CEO's *a la* Murphy Brown, the team members of CCSU's own student-run program, *University Magazine*, focus on topics slightly closer to home. For the last semester, the show's crew and air personalities have worked hard to bring local issues to the attention of the student body and community.

This semester, senior Paul Banda took over the helm as the show's producer/director, coordinating a cast and crew of about 10 people. Under his direction, the show came into its own, expanding audience and story coverage to include not only CCSU, but Corpus Christi and the surrounding areas.

All of this exposure has done wonders for the show's name recognition. "People really know who we are now," declared a delighted Banda. Senior Sandra Brionez, one of the news anchors for the show along with fellow classmate Claudia Morales, agreed. In fact, Brionez has even gained some measure of local fame. "I had people come up to me at the store because I looked familiar," she said. According to Banda, even members of the Corpus Christi Chamber of Commerce view the show.

"Paul has put a lot of effort into making the program more appealing to everyone," said Brionez, explaining the shows increased popularity. Some of the innovations for this semester included location shoots (including one from the deck of the *USS Lexington*), guest anchors from the CCSU student body, student lead-ins to the show, and a two-anchor news format rather than the traditional one-person arrangement.

In addition to the format and focus changes, the Spring 1993 semester marked another important milestone for the *University Magazine*—CCSU students were able to produce the show entirely in-house.

University Magazine features co-anchors Claudia Morales (left) and Sandra Brionez.

Before, explained Banda, editing and production took place at the local studios of KZTV, Channel 10. Now, all of the filming, editing and production happens in the CCSU studios in Corpus Christi Hall. Besides giving the student crew experience on different equipment, this arrangement has allowed the show to pursue some additional projects, such as producing their own public service announcements.

Banda recognizes that these accomplishments are the result of the close teamwork of all involved with the show. "In this profession, big egos are really easy to develop," explained Brionez, "and they can be a problem. But everyone had a positive attitude and made the best of the positions they were assigned."

Morales agreed, "We didn't have any prima donnas." She encouraged students to get involved with the show, and offered some advice: "If you have any ideas, just express them to the director. The show is a team effort; it's not only a class, but a family."

The *University Magazine* is broadcast on cable channel 19. The final show of the semester will be shown May 1-14, Mondays and Tuesdays at 12:30 p.m.; Wednesdays-Fridays at 6:30 p.m.; Saturday at 6:00 p.m. and again at 7:30 p.m.; and Sunday at 2:30 p.m.

CCSU hosts "overfunctioning" seminar

Spreading yourself too thin—it's not an uncommon problem, especially if you are in a profession requiring a high degree of human interaction. To improve the way nurses and other health workers cope with this problem, the South Texas Medical Social Workers Society (STMSWS) will present a seminar on "Overfunctioning: Challenges to the Helping Professional." Noted psychotherapist Susan Luff, R.N., M.S., C.S., will present the day-long seminar Friday, May 21 in Room 117 of Corpus Christi Hall.

Registration fees for the conference are \$55 for registrations received before May 7, \$65 for those postmarked after. Fees include the cost of the seminar, all materials, a continental breakfast, breaks and lunch. For further information and registration forms, contact CCSU's Office of University Outreach at 994-2434.

OECS continued from pg 1

the hopes of speeding entry into force of the MARPOL V Special Area for the Wider Caribbean. The MARPOL V "special area" designation prohibits dumping trash, with the exception of finely ground food scraps, anywhere in the Gulf of Mexico and Wider Caribbean.

Garry Mauro, Texas General Land Office commissioner, explained, "Unless Caribbean nations are able to properly dispose of ship garbage when ships stop at their ports, we will never be totally effective in ridding Texas beaches of the

trash because of the gulf's unique circulation patterns." Proper enforcement of the treaty could rid Texas beaches of hundreds of tons of ship-dumped trash that wash ashore each year.

On the last day of the training conference, delegates visited the Port of Corpus Christi, where they examined the Port's steam sterilizing process. This facility enables the Port to meet U.S. Department of Agriculture standards and rid the garbage of potential pests that may enter the U.S. through contaminated refuse.

The *University News* of Corpus Christi State University is published by the Office of Public Information biweekly during the long semesters and monthly in the summer.

- News items, classified ads and letters-to-the-editor may be submitted to the OPI in the Administration Building, or mailed to: *University News*, Office of Public Information, Corpus Christi State University, 6300 Ocean Dr., Corpus Christi, TX 78412. Deadline for submissions is noon the Tuesday prior to publication. Letters-to-the-editor must be signed and include author's current phone number. Commercial advertising is not accepted.
